

## Physics of the Earth as a Planet - Glossary

Some students of this course have taken Geology 1a but for most the subject matter is new and some of the terms used may be unfamiliar. If you feel there are terms used in the lectures that should be defined but are not, please send these by email to Keith Priestley ([keith@esc.cam.ac.uk](mailto:keith@esc.cam.ac.uk)). They can then be added to this Glossary.
